

# ALKALINITY AID

## Steam Boiler Treatment

- Prevents scale and corrosion to provide optimum boiler efficiency.
- Ready-to-use liquid.

### General Description

**Alkalinity Aid** provides supplemental alkalinity control in steam boiler systems. The product is used with other boiler treatment formulations.

**Spectrum®** treatment products and programs are the key to long term preventive maintenance. Make **Spectrum®** a part of your preventive maintenance program today.

### Specifications

Wt/gallon:	10.6 lbs
pH:	Greater than 12
Specific Gravity:	1.275
Appearance:	Clear

- USDA Authorized – G 6
- Meets FDA Regulation CFR Title 21 Part 173.310

### Handling

Recommended storage limit is 18 months.  
Keep container closed when not in use.

### Applications

The dosage of **Alkalinity Aid** will depend on the makeup water analysis and the amount of make-up water used in the system. Dosage is controlled through periodic analysis of the boiler water.

**Alkalinity Aid** can be added on a periodic basis through a bypass feeder on the makeup water or feedwater line. For high makeup boilers, an alkali resistant chemical feed pump is recommended.
