

CWT-009

Concentrated Source of Phosphate

- Used for passivation of new cooling systems.
- Composed of condensed phosphate so precipitation will not occur in the lines.
- Convenient, ready-to-use liquid formula.

General Description

CWT-009 is formulated for use in cooling tower systems and ideally suited for passivation of new systems and a source of phosphate when supplemental corrosion inhibitor is required.

Spectrum® treatment products and programs are the key to long term preventive maintenance. Make Spectrum® a part of your preventive maintenance program today.

Specifications

| | |
|-------------|-----------|
| Wt/Gallon: | 11.7 lbs. |
| pH: | Neutral |
| Appearance: | Clear |
| Odor: | None |

Handling

Recommended storage limit is 18 months.
Keep container closed when not in use.

Application

The amount of CWT-009 will vary depending on the analysis of the make up water.
