

INDUSTRIAL VOLTREET[®]

Condensate Line Treatment

- Prevents carbonic acid corrosion of the condensate return system
- Cleaning action will gradually remove old corrosion deposits

General Description

Industrial Voltreet is a blend of neutralizing amines formulated to prevent corrosion of condensate return lines.

Spectrum[®] treatment products and programs are the key to long-term preventive maintenance. Make **Spectrum[®]** a part of your preventive maintenance program today.

Specifications

Wt/Gallon:	8.26 lbs.
pH:	Greater than 11
Specific Gravity:	0.98 – 1.00
Appearance:	Clear liquid
Odor:	Amine

- USDA Authorized: G 7
- Meets FDA Regulation CFR Title 21 Part 173.310

Handling

Recommended storage limit is 18 months.
Keep container closed when not in use.

Applications

The dosage of **Industrial Voltreet** will vary depending upon the formulation of the condensate system, the makeup water analysis and the amount of makeup water. **Industrial Voltreet** is controlled by maintaining the pH of the condensate in a slightly alkaline range.

Industrial Voltreet is added to the system continuously or on a periodic basis depending upon the system needs. It can be added to the boiler through a bypass feeder or a chemical feed pump.
