

OS-192

Feedwater Oxygen Scavenger

- Removes dissolved oxygen to prevent oxygen pitting.
- Neutralized concentrated formulation.
- Convenient, ready-to-use liquid.

General Description

OS-192 is neutralized concentrated formulation for oxygen scavenging in the steam boiler feedwater.

Prior to the development of **OS-192**, the engineer would add additional alkaline boosters to neutralize concentrated acidic liquid scavengers.

OS-192 when used in conjunction with other **Spectrum®** products will provide complete boiler system protection.

Spectrum® treatment products and programs are the key to long term preventive maintenance. Make **Spectrum®** a part of your preventive maintenance program today.

Specifications

Wt/gallon:	10.59
pH:	9.0
Specific gravity:	1.27
Appearance:	Clear Liquid

- Meets FDA Regulation CFR Title 21 Part 173.310 and Part 184.1631

Handling

Recommended storage limit is 18 months.
Keep container closed when not in use.

Application

OS-192 can be added on a periodic basis through a bypass feeder on the feedwater line. Continuous feed with a chemical feed pump is recommended for optimum control.
