

UNITREAT™ 2

Steam Boiler Treatment

- One easy-to-feed, test and control product for low makeup steam heating boilers
- One product does the work of many
- Inhibits oxygen pitting and boiler corrosion
- Contains scale control agents, alkalinity boosters, sludge conditioners, and dispersant
- Inhibits condensate return line corrosion

General Description

Unitreat 2 is specifically formulated to reduce the time spent treating low pressure steam boilers. **Unitreat 2** provides scale and corrosion protection for the boiler and condensate system. It is non-polluting and concentrated to give superior performance at a price in line with tight operating budgets.

Spectrum® treatment products and programs are the key to long-term preventive maintenance. Make **Spectrum®** a part of your preventive maintenance program today.

Specifications

Wt/Gallon:	8.90 lbs.
pH:	> 11.5
Appearance:	Clear Liquid
Odor:	Slight Amine

Handling

Recommended storage limit is 18 months.
Keep container closed when not in use.

Application

Unitreat 2 is easily added through a bypass feeder on the feedwater line or through the condensate tank.
