UNITREAT 16

Steam Boiler Treatment

- One easy-to-feed, test and control product for low makeup steam heating boilers.
- One product does the work of many
- Inhibits oxygen pitting and boiler corrosion.
- Contains scale control agents, alkalinity boosters, sludge conditioners and dispersant.

General Description

Unitreat 16 is specifically formulated to reduce the time spent treating low pressure steam boilers. Unitreat 16 provides scale and corrosion protection for the boiler but DOES NOT TREAT THE CONDENSATE SYSTEM. It is non-polluting (no chromates or heavy metals) and concentrated to give superior performance at a price in line with tight operating budgets.

Spectrum® treatment products and programs are the key to long term preventive maintenance. Make **Spectrum**® a part of your preventive maintenance program today.

Specifications

Wt/Gallon: Specific Gravity: 9.08 lbs. 1.10

pH: Appearance: > 11.5 Clear liquid

Handling

Recommended storage limit is 18 months. Keep container closed when not in use.
