

VOLTREET[®] SPECIAL

Condensate Line Treatment

- Prevents carbonic acid corrosion of the condensate return
- Convenient ready-to-use liquid formula.
- Cleaning action will gradually remove old corrosion deposit

General Description

Voltreet Special is a blend of neutralizing amines formulated to prevent corrosion of condensate return lines.

Spectrum[®] treatment products and programs are the key to long term preventive maintenance. Make Spectrum[®] a part of your preventive maintenance program today.

Specifications

Wt/Gallon:	8.35 lbs
pH:	> 11
Specific Gravity:	1.005
Appearance:	Clear liquid
Odor:	Faint amine

- Meets FDA Regulation CFR Title 21 Part 173.310

Handling

Recommended storage limit is 18 months.
Keep container closed when not in use.

Applications

The dosage of Voltreet Special will vary depending upon the formulation of the condensate system, the makeup water analysis and the amount of makeup water. Voltreet Special is controlled by maintaining the pH of the condensate in a slightly alkaline range.

Voltreet Special is added to the system continuously or on a periodic basis depending upon the system needs. It can be added to the boiler through a bypass feeder or a chemical feed pump.
