

# WT-160

## *Scale and Corrosion Inhibitor*

- Advanced dispersant technology allows superior scale and corrosion control in cooling system.
- One, easy-to-use formula for scale and corrosion control.
- Does not contain heavy metals.

### General Description

WT-160 is formulated to control scale and corrosion in recirculating cooling water systems. WT-160 contains a blend of corrosion inhibitors to protect most system metals, the inhibitors are free of chromates and phosphates.

Spectrum® treatment products and programs are the key to long term preventive maintenance. Make Spectrum® a part of your preventive maintenance program today.

### Specifications

Wt/Gallon:	8.55 lbs
pH:	> 11.0
Specific Gravity:	1.025
Appearance:	Light Amber liquid

### Handling

Recommended storage limit is 18 months.  
Keep container closed when not in use.

### Applications

WT-160 may be fed straight or mixed with water to any convenient concentration. Designed to be used with good quality soft water applications.
