

Product Data Sheet

Product Name: **WSU 101**

WSU 101 is a liquid polyphosphate specially blended for use in potable water systems.

WSU 101 has a negligible reversion rate even after being stored for long periods of time.

WSU 101 is a 100% polyphosphate product.

Color: clear liquid

Specific Gravity: 1.38 +/- .02

pH: 5.74 +/- 0.5

Viscosity: 45 cps

Freeze Point: < 0 deg. C

Maximum Use Level: 32 mg/L

34% +/- 2% as active PO₄

Treatment levels for **WSU 101** depend on the pH, calcium hardness and total solids of the water. The normal use rate of **WSU 101** is between .5 and 4mg / l. Max use is 29 mg/l

WSU 101 is supplied in 15, 30, & 55 Gallon drums totes and bulk

WSU 101 prices are FOB, Camby, IN, East Peoria, IL, & Jackson, MI

Certified to
NSF/ANSI 60
